Cell Phone Tips~

(Cheryl received this via email and though you might find it interesting. We have only tried the 2nd tip and it worked. Steve tried the 3rd tip and it didn't work on his phone. Maybe these will help you.)

Things you never knew your cell phone could do. There are a few things that can be done in

times of grave emergencies. Your mobile phone can actually be a life saver or an emergency tool for survival. Checkout the things that you can do with it:

FIRST Subject: Emergency

The Emergency Number worldwide for Mobile is 112. If you find yourself out of the coverage area of your mobile; network and there is an emergency, dial 112 and the mobile will search any existing network to establish the emergency number for you, and interestingly this number 112 can be dialed even if the keypad is locked. Try it out.

SECOND Subject: Have you locked your keys in the car? Does your car have remote keyless entry? This may come in handy someday. Good reason to own a cell phone: If you lock your keys in the car and the spare keys are at home, call someone at home on their cell phone from your cell phone. Hold your cell phone about a foot from your car door and have the person at your home press the unlock button, holding it near the mobile phone on their end. Your car will unlock. Saves someone from having to drive your keys to you. Distance is no object. You could be hundreds of miles away, and if you can reach someone who has the other "remote" for your car, you can unlock the doors (or the trunk).

THIRD Subject: Hidden Battery Power

Imagine your cell battery is very low. To activate, press the keys *3370# Your cell will restart with this reserve and the instrument will show a 50% increase in battery. This reserve will get charged when you charge your cell next time.

FOURTH How to disable a STOLEN mobile phone?

To check your Mobile phone's serial number, key in the following digits on your phone: * # 0 6 #

A 15 digit code will appear on the screen. This number is unique to your handset. Write it down and keep it somewhere safe. When your phone get stolen, you can phone your service provider and give them this code. They will then be able to block your handset so even if the thief changes the SIM card, your phone will be totally useless. You probably won't get your phone back, but at least you know that whoever stole it can't use/sell it either. If everybody does this, there would be no point in people stealing mobile phones.

And Finally....

FIFTH -Cell phone companies are charging us \$1.00 to \$1.75 or more for 411 information calls when they don't have to. Most of us do not carry a telephone directory in our vehicle, which makes this situation even more of a problem. When you need to use the 411 information option, simply dial: (800) FREE 411, or (800) 373-3411 without incurring any charge at all. Program this into your cell phone now

Quotable Quotes~

Life is like an onion. You peel it off one layer at a time; and sometimes you weep. ~

Barn Police~

A short note from Cheryl-

I really don't like to play the part of barn cop. I prefer to spend my time at the barn working with my horses and clients or having enjoyable conversations. Please don't put me in the position of "barn cop". I hate having to enforce the rules as much as you hate being told you are not following the rules.

Next time you are at the ranch, please take a moment to review the list of rules on the bulletin board and make sure you are following them. Every rule has a reason and purpose, even if you don't understand it or know what it is. If you are unsure of the meaning of any rule, you are always free to ask. We will be happy to explain more fully. Thank You!

*P.S. My two biggest pet peeves are horses left out in the arena or round pen without supervision and wearing sandals while handling your horse. I'll call you on these every time!
(Even after office hours)*
